Mazes for Adults

40 relaxing mazes with bold lines, from gentle to challenging

40 MAZES · SOLUTIONS INCLUDED

How to play

Start at the top-left opening and find your way to the exit at the bottom right. Every maze in this book is a "perfect" maze: it has no loops, so there is exactly one route through, and software walked each printed maze to prove it.

The mazes start gently and grow larger and more winding as you go. Solutions are at the back, with the route drawn in red.

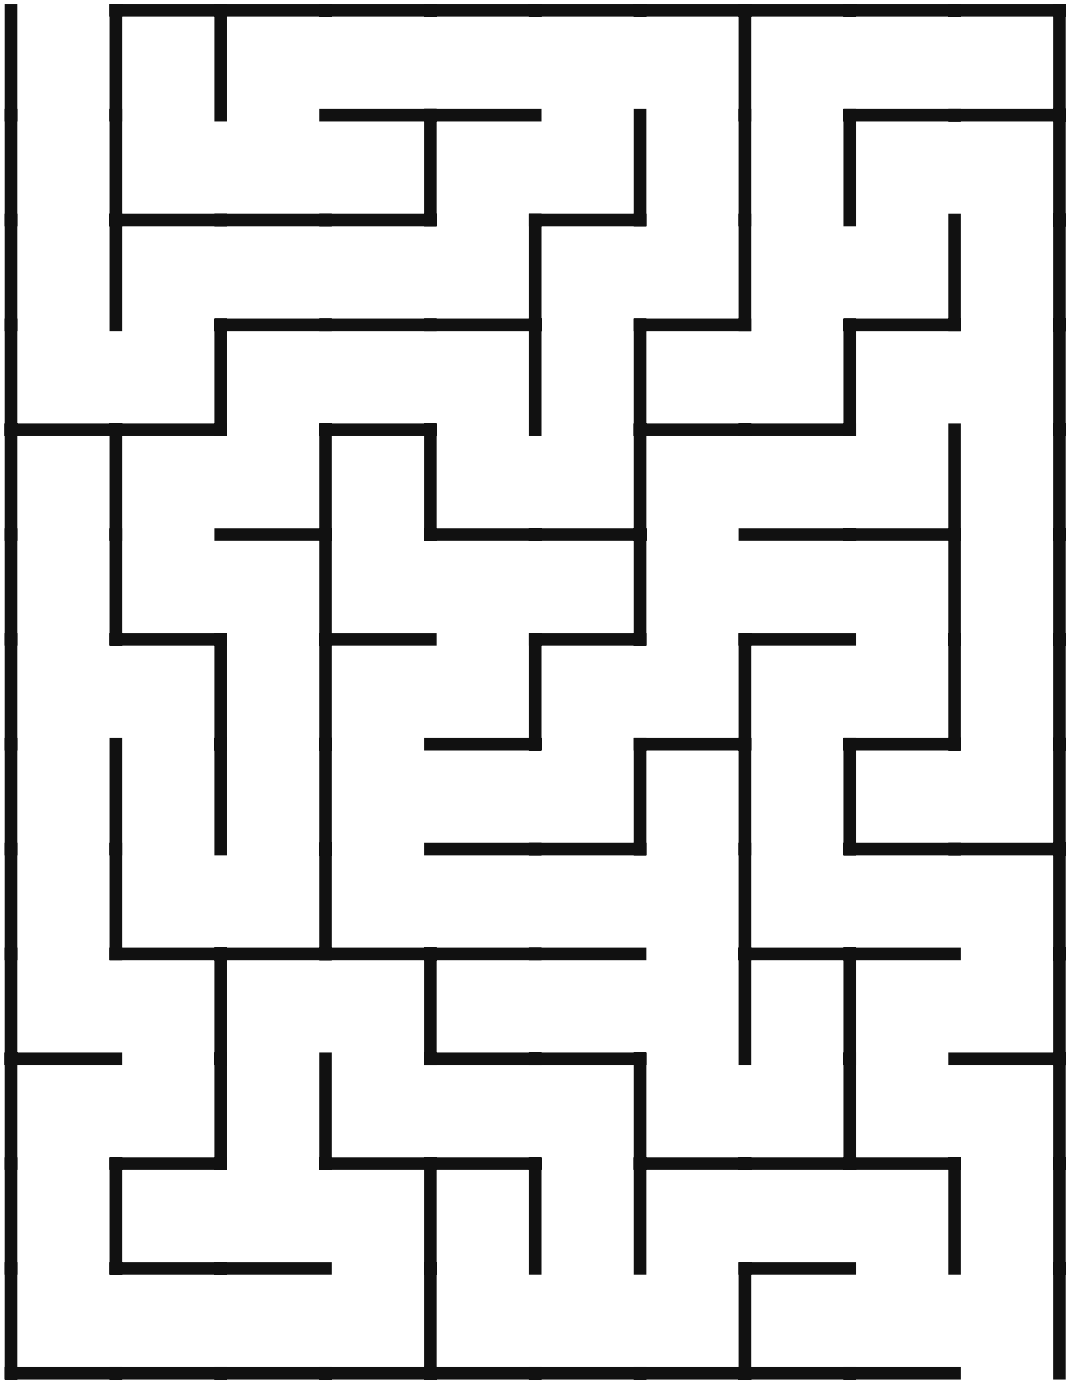

Tip: a pencil and a soft eraser are your best friends. Lines are thick and dark so they print clearly on any home printer.

Please do not resell, share, upload or redistribute the file or the puzzles, in print or digital form. Puzzles were generated and checked by our own puzzle software, and every sudoku was proved by a solver to have exactly one solution.
